PROFESSIONAL SUMMARY

Full-stack Software Engineer with 2+ years of experience building enterprise-grade React and .NET applications, including ERP and CMS systems. Proficient in modern web development with React.js, Next.js, and Tailwind CSS, and strong back-end skills in Node.js/Express, ASP.NET Core Web API, and SQL Server. Experienced in leading end-to-end development from UI design through API integration and deployment. Passionate about clean code, responsive design, and delivering tangible business value.

WORK EXPERIENCE

Interactive Technologies Gateway

2024 – Present

Software Developer – React + .NET

- Architected and delivered full-stack features for CMS and ERP modules serving multiple business departments, reducing manual workflows by an estimated 40%.
- Developed and integrated 15+ RESTful API endpoints using ASP.NET Core Web API, improving data flow reliability and reducing front-end load times.
- Built reusable React component library using Material UI, cutting UI development time for new ERP modules by approximately 30%.
- Collaborated directly with business stakeholders to gather requirements and translate them into technical specifications, reducing revision cycles.
- Debugged and resolved critical production issues across both frontend and backend layers, maintaining high system uptime.

Aptech

2024 – 2025

Course Instructor – Web Development

- Taught HTML, CSS, JavaScript, and React to 25+ students per cohort across multiple batches.
- Designed course curriculum, hands-on assignments, and assessments aligned with industry standards.

Coderatory | Revolution in Innovation

Jan 2023 – Jun 2023

Frontend Developer – React JS

- Developed responsive React.js user interfaces for client-facing web applications.
- Collaborated with design and back-end teams to deliver pixel-perfect UI components on schedule.

Internee.pk

2023 – 2024

MERN Stack Developer – Internship

- Built full-stack features using MongoDB, Express, React, and Node.js in an agile team environment.
- Contributed to REST API development and front-end integration across multiple sprint cycles.

PROJECTS

Sales Contract Module – ERP | ASP.NET Core, SQL Server, React, Material UI, React-PDF

Developed a complete Sales Contract module for an ERP system handling master-detail data structures, complex validations, and business rules. Built the React frontend with dynamic forms, editable tables, and automated PDF generation using React Hook Form and React-PDF.

Cyclo ERP – Frontend Developer | React, Material UI

Contributed to the Cyclo ERP project as a frontend team member, building UI for the Commercial module (Export Invoice, LC Creation, Import Invoice) and HR module (Profiles, Shifts, Salary, Holidays). Focused on responsive design, form handling, and smooth UX across 6+ modules.

Project Management System – Full Stack | React, Node.js, Express, MongoDB

Independently designed and developed a complete Project Management system with full frontend and backend. Built features to manage projects and clients, filter project lists by employee and duration, and handled all UI, business logic, and backend APIs end-to-end.

Full Stack E-Commerce Website | Next.js, Sanity CMS, Stripe

Built a production-ready e-commerce application using Next.js, Sanity as a headless CMS for product management, and Stripe for secure payment processing. Delivered dynamic content rendering and a seamless checkout experience.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap
Backend:	Node.js / Express, ASP.NET Core Web API (C#), PHP, Python
Databases:	SQL Server, MongoDB, Firebase
Tools & Other:	Git / GitHub, REST APIs, React Hook Form, React-PDF, Sanity CMS, Stripe

EDUCATION

Sindh Madrasatul Islam University <i>BS Computer Science</i>	2020 – 2024
Govt College Forman Nazimabad <i>Intermediate (Pre-Engineering)</i>	2018 – 2020
Rukaiyya Hajiani High School <i>Matriculation</i>	2018

LANGUAGES & INTERESTS

Languages: English (Fluent), Urdu (Fluent)
Interests: Travelling, Sports, Swimming, Gaming
